Mr. Henry P. Mahoney  
Director of Logistics  
Central Intelligence Agency  
Washington, DC 20505

Dear Mr. Mahoney:

I have reviewed the Environmental Assessment prepared by the Virginia State Highway Department for Planned Road Improvements on Route 123 in the vicinity of the Central Intelligence Agency (CIA) entrance forwarded to us under your letter of June 20, 1985.

I concur with your findings that there will be no significant impact on the environment as a result of the proposed off-site road improvements at the CIA entrance in Fairfax County, that the document is an appropriate supplement to the 1981 Environmental Assessment covering the Master Plan for the CIA installation and that the November 5, 1981, finding of no significant impact is still valid.

Sincerely,
